TREASURED TEAPOT MUSEUM
& TEAROOMS

Welcome to Bygone Beautys Treasured Teapot Museum & Tearooms, home of the world's largest private collection of teawares. There are now more than 11,000 teapots in the collection, spanning eight centuries and including teapots from all over the world, most of which were collected within Australia.

History of Bygone Beautys

The collection started in 1974, when Ronald Hooper, a previous joint owner of Bygone Beautys came across a geisha girl teapot (shown on last page), made in England in the 19th Century. Like any piece of decorative art, this teapot sat proudly on Ron's dresser and before long was accompanied by many more teapots.

In 1992, Ronald Hooper and Maurice Cooper OAM, the current proprietor, joined forces to create Bygone Beautys. Maurice quickly matched Ron's collection to give equality to the partnership.

The Treasured Teapot Museum reflects and preserves the diversity of Australian tea-drinking culture. Everywhere you look you will see teapots; old and new, rare and collectable from Australia, America, Asia, Africa and Europe. The collection features teapots made from different materials including china, silver, silver plate, pottery, fine porcelain, cast iron, bakelite, decoupage and textiles.

Bygone Beautys currently has over 100 different variations of teas for purchase, including early and secondary pickings and infusions of fruits, flowers and herbs.

Beautiful Revamp for Treasured Teapot Collection

Whether you like English or Irish breakfast, Oolong or Russian Caravan; white, green, orange or red; weak, strong or smokey, the long-awaited Bygone Beautys Treasured Teapot Museum & Tearooms revamp has been steeped to perfection and is ready to savour.

The major extensions and renovations of the popular Leura tourist attraction were officially opened by former NSW Governor Professor the Honourable Dame Marie Bashir AD CVO at a glittering soiree attended by a veritable who's who of the local tourism industry, along with family and friends of owners Maurice Cooper OAM and Kerry McKenzie. 0

Professor Dame Marie unveiled a commemorative plaque and spectacular custom-made Mad Hatter's-inspired teapot sculpture by metal artists Ron Fitzpatrick and Steve Cunningham of Talisman Gallery at Hartley. The creation was made from a salvaged chimney stack from a steam engine, complete with a candy-like decorative steel handle, bow-tie-wearing rabbit and spout.

The Bygone Beautys revamp was created using local suppliers and tradespeople where possible and includes a new museum space, function room, formal tearoom and retail area specialising in all things tea-related.

The teapot collection continues to grow with additional private collections being acquired in 2020 & 2021. The oldest teapot is professionally attributed to be 1399-1445
